

New Voices: Stage Management

Students with exceptional organizational experience may apply to be stage managers.

Each stage manager, selected through an application and interview process, is assigned to a single, one-act show. Their duties include running rehearsals, keeping production schedules for their show, scheduling design and technical meetings, serving as a communication link between students in the other pathways, and, during performances, calling cues.

Stage managers may also direct one other show, perform in one other show, or be on the tech crew. Stage managers may not direct or perform in the show that they are stage managing. Playwrights may also stage managers for any one-act, including their own.

The deadline for online submission of the [stage managers' application](#) and portfolio (optional) is **May 20th**. Interviews will take place on **May 21st**.
