

India Development and Relief Fund, Inc. (IDRF) was established by Dr. Vinod Prakash, a World Bank retiree in 1988 as a tax-exempt public charity. IDRF's objective is to break the cycle of poverty in India and Nepal by empowering marginalized people with skills, services and infrastructure grounded in sustainable development. Developmental challenges are multi-dimensional, so have to be the solutions. Therefore, IDRF has been helping deprived people all across India from Jammu & Kashmir to Tamil Nadu and Arunachal Pradesh to Gujarat through variety of programs such as Education, Health, Women Empowerment, Good Governance, Rural Sanitation and Eco-friendly development. In addition, IDRF has been actively involved in providing relief and rehab to victims of disasters such as Cyclone, Earthquake, Floods, Tsunami and soon.

By now, IDRF has sent grants over \$30 million directly to the implementing agencies, while keeping the overall admin cost below 5%. Because of exemplary efforts, IDRF has been awarded a 4 out of 4 stars rating for last three consecutive years by Charity Navigator, the Premier Non-Profit Rating Agency, certifying that IDRF exceeds industry standards and outperforms most charities in USA.

IDRF has been working very closely with the Indian-American Community, especially whenever a member of the community wishes to give back to his/her native place. It has been a rewarding experience for IDRF, NRIs and the marginalized people in India. We have succeeded in building new schools, dorms for boys/girls, medical vans and skill development center etc.

If you wish to fulfill your dream, please contact us on admin@idrf.org or 301-704-0032.
